ETA 9057 (Rev. March 1998)

**Instructions for Preparing ETA Form 9057 - Report 1:**

**ETA Form 9057 - Conditional Certifications by Tax Credit, Work Opportunity and Welfare-to-Work Tax Credits - Report No. 1** is designed to report the number of Conditional Certifications (ETA Form 9062) issued during each reporting quarter by the DLAs and participating agencies. The report should be prepared using data collected through ETA Form 9062.

This report also reflects the changes enacted by P.L. 105-34. In addition to reauthorizing the WOTC and expanding WOTC target groups to include certain SSI recipients, P.L. 105-34 also established a second tax credit, the Welfare-to-Work Tax Credit, for certain long-term IV-A recipients. Therefore this report collects quarterly data on conditional certifications by each tax credit. Further, because some individuals may be eligible for both tax credits, and because such individuals must be issued dual certifications, all data collected on conditional certifications must be reported by dual certification, as well as by WOTC and WtW tax credit.

The report is divided into two sections. The first section, entitled "I. By Issuing Agency," reports the number of WOTC conditional certifications (CCs), the number of WtW CCs, and the number of dual (WOTC/WtW) CCs issued by SESAs and all participating agencies (boxes 1-11).

Where no CCs have been issued, please enter "0."

The second section, entitled "II. By WOTC Target or Long-Term IV-A Recipient Group," reports the same information -- the number of WOTC CCs, the number of WtW CCs, and the number of dual (WOTC/WtW) CCs, by WOTC target group and by long-term IV-A recipient (boxes 12-22).

Where no CCs have been issued, please enter "0."

The quarterly and year-to-date (cumulative) totals in Section I (boxes 10-11, respectively) should equal the quarterly and year-to-date (cumulative) totals in Section II (boxes 21-22, respectively).

**NOTE:** This form no longer reports conditional certifications by type, i.e., by whether they are original or revalidated (box 3 of ETA 9062). Therefore, counts of CCs in boxes 1-9 and 12-19 should not distinguish between original and revalidated CCs. For example, if in the first quarter of Fiscal Year 1998, an agency issued 70 original and 30 revalidated CCs, that agency issued 100 CCs.

Note also that this form no longer reports conditional certification invalidations.
