SUBJECT: Selected Unemployment Insurance (UI) Tax Data from Form ETA 581, Contribution Operations for the Calendar Year (CY) Ending December 31, 2007

1. **Purpose.** To provide a summary of selected ETA 581 data with associated charts and tables for CY 2007.
2. **References.** ET Handbook No. 401, 4th Edition, May 9, 2007, Section II, Chapter 2; ET Handbook No. 407, 4th Edition, November 20, 2003; Unemployment Insurance Program Letter (UIPL) No. 14-05, "Changes to UI Performs"; UIPL No. 14-05, Change1; UIPL No. 19-08, "Call Memo for the Fiscal Year (FY) 2009 UI State Quality Service Plan (SQSP)".
3. **Background.** CY 2007, UI tax performance data and computed measures (CMs) presented in this summary report are derived primarily from the quarterly ETA 581 Contribution Operations report. Although this is a summary of CY 2007 activity, many of the charts in this analysis show quarterly data, due to the cyclical nature of tax functions.

State and Regional CM percentages for each of the 19 measures, along with the raw data used for computation of the percentages, are displayed in 13 CM tables that may be viewed on the Office of Workforce Security (OWS) website at: [http://www.workforcesecurity.doleta.gov/unemploy/nat\\_sum\\_tables\\_2007.asp](http://www.workforcesecurity.doleta.gov/unemploy/nat_sum_tables_2007.asp).

The information displayed on the referenced tables is based on data in the database as of May 27, 2008. Due to occasional ETA 581 report adjustments made by states, the attached charts and tables may differ from more current information. Current CM information is available on the web page, although displayed in less detail at: <http://www.workforcesecurity.doleta.gov/TPSWP-CM-CMC/web.jsp>.

4. **Action.** State Administrators are requested to distribute this advisory to appropriate tax program staff.
5. **Inquiries.** Inquiries should be directed to the appropriate regional office (RO).
